The Technology You Want. The Consistency You NEED.

We built StreetLinks QX™ because we needed it ourselves. Our instincts told us that if we, as an AMC, needed it we probably weren’t alone.

Over 1 million internal reviews later, StreetLinks QX has improved our collateral underwriting efficiency by 40%. What would that kind of time savings do for your business?

Say Goodbye to Risky, Redundant Reviews
Abolish risk and redundancy with StreetLinks QX, the industry’s most powerful and consistent collateral underwriting solution.

StreetLinks QX is the culmination of the most sophisticated automated review utility and manual underwriting manager ever developed. This groundbreaking technology is infused with appraisal-based principles, giving StreetLinks QX the power to perform underwriter-quality reviews instantly.

StreetLinks QX Allows You to:
- **REDUCE** collateral underwriting time by up to 40%!
- **REMOVE** subjectivity across AMCs or underwriters.
- **EXECUTE** and focus on manual examination requirements.
- **IMPLEMENT** redundant review processes.
- **CONFIRM** regulatory compliance, including Fannie & Freddie hard stop concerns and warning questions.

The BRAINS of the Operation
The components of StreetLinks QX work together to bring long-awaited confidence to your collateral review process.

**QUESTIONS**
StreetLinks QX’s intelligent rules engine scrubs each appraisal against hundreds of rigorously tested rules, which can be customized to fit your review needs.

**ANSWERS**
After the robust automated review, StreetLinks QX generates a compliant, focused report that points your underwriting team directly to the areas that need their attention.

**DIRECTIVES**
The accuracy and transparency of StreetLinks QX’s automated and manual review sections gives you clear directives on the best actions to take with each loan.
